

MEASURING NOTES

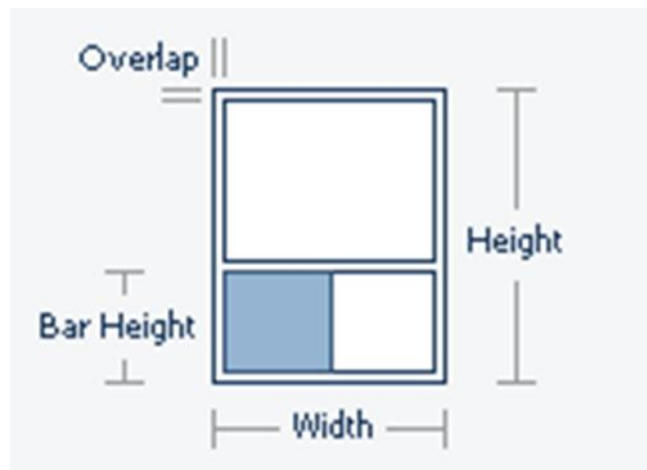

Specify screen
left or right from outside

Side Sliding Storm Window

Double Hung Storm Window

Picture over Slider Storm Window

For an overlap double hung inside takeoff the width of the insert must be narrow enough to pass through the inside opening. The insert will be 3 3/4" less than the total width ordered.

On all our storm window you can specify:

- Inside or outside take off
- Colour
- Overlap or blindstop frame
- Screen position
- CMR or bar height
